as globalization continues apace market segmentations are diminishing distance is shrinking and the boundaries between nation states are becoming increasingly blurred national economies are closely interlinked through manychannels and we rarely view things from a single country s view adopting a global perspective instead it is therefore imperative to understand how the world economy functions this book utilizes up to date empirical evidence to illuminate the mechanics of the world as a single entity the author explores the properties of the world economy the diverse mechanisms of interdependence shocks and disturbances economic processes and structures and the institutional arrangements that guide these processes key topics covered include world gdp growth and global product and factor markets china as a new global player the roots and impact of financial and currency crises the performance of the developing countries over time which have gained which have lost conflicts between the national interest and global concerns protectionism locational competition for mobile factors of production environmental issues the institutional arrangements for the world economy imf wto the world economy a global analysis will be essential reading for students studying the world economy from the perspective of economics finance business and politics

this book an edited compilation of twenty nine essays focuses on the difference s that a christian worldview makes for the disciplines or subject areas normally taught in liberal arts colleges and universities three initial chapters of introductory material are followed by twenty six essays each dealing with the essential elements or issues in the academic discipline involved these individual essays on each discipline are a unique element of this book these essays also treat some of the specific differences in perspective or procedure that a biblically informed christian perspective brings to each discipline christian worldview and the academic disciplines is intended principally as an introductory textbook in christian worldview courses for christian college or university students this volume will also be of interest to christian students in secular post secondary institutions who may be encountering challenges to their faith both implicit and explicit from peers or professors who assume that holding a strong christian faith and pursuing a rigorous college or university education are essentially

incompatible this book should also be helpful for college and university professors who embrace the christian faith but whose post secondary academic background because of its secular orientation has left them inadequately prepared to intelligently apply the implications of their faith to their particular academic specialty such specialists be they professors or upper level graduate students will find the extensive bibliographies of recent scholarship at the end of the individual chapters particularly helpful

this book concerns the urgency of thinking and acting in response to climate change through art and education while both fields are often connected through disciplinary dialogues climate change prompts a greater need to unite artists and educators around common environmental problems and goals by staging transcritical engagements this book draws out common and uncommon disciplinary perspectives that can generate new ways of thinking living and doing in the anthropocene ideas around courage resilience life and death emerge an expression of active non violent resistance to the ongoing destruction of our planet this book supports imaginative action popular sovereignty and the courage to live well within the challenges of our era engaging artists and educators questions it maps significant differences and potential intersections for further enquiry events of art and education in post climate times will be helpful for students studying art education environment sustainability and climate change it will also interest researchers practising artists and teachers in these disciplines by being at the forefront of current discussions in both fields

good local governance reflects the dual functions of local government on the one hand democratic regimes gain input legitimacy by responsiveness and by being inclusive towards the preferences of their citizens on the other hand they achieve output legitimacy by effectively delivering public goods and services their governance strategies follow three major paths decentralisation political administrative reforms and participatory reforms but national contexts actors political culture and path dependency matter a lot in this book continent wide developments are compared by using relevant country studies this comparative approach focuses on developing countries in asia africa and latin america comparing and contrasting their experience with that of european countries

computers communication and mental models is a far ranging focused treatment of the cognitive and behavioural issues in computer mediated communication knowledge representation and computer supported co operative work it is also an argued development of the theoretical bases for treating computerized tools as intermediaries in the

communication of mental maps between tool builders and users empirical trails are reported in detail sufficient for representation in computer based instruction fractal dimensions of cognitive mapping and group decision support the book is a collection of multidisciplinary papers which each shed light on the complex interactions between users and systems architects via a common medium computerized tools

there is an increasing recognition today that young people need to have knowledge about religions and world views in order to live and work in diverse societies what kind of maps are they provided with through religious values and ethics education does education address the challenging existential questions that children and adolescents ask about life and the world this volume addresses different aspects of how existential questions have been dealt with in educational research it especially draws attention to the swedish research tradition of focusing on life questions and the interpretation of life in education but with contemporary international research added it also addresses issues of ethics education and discusses possible options for the future of existential questions as a resource for education

updated throughout and with three entirely new chapters worldviews an introduction to the history and philosophy of science second edition furthers its reputation as the definitive introductory text on the historical developments and philosophical issues that inform our scientific view of the world around us represents an innovative introduction to the history and philosophy of science designed especially for those coming to the subject for the first time updated new edition features the addition of chapters focusing on scientific laws evolutionary theory and implications of evolution covers the key historical developments and philosophical themes that have impacted our scientific view of the world around us analyzes the transitions from the aristotelian worldview to the newtonian worldview to a new and currently developing worldview explores challenges to the western scientific worldview brought on by recent discoveries

the way we think determines our everyday lives political goals are mostly driven by economic interests while ethical questions belong to the realms of worldview lifestyle and education so is the climate crisis merely a matter of belief a recent study suggests that it may be as it shows that four selected models of thinking economism religionism humanism and veganism have very different potential and limitations when it comes to transforming society into a more climate friendly and sustainable one these models are confronted with indicators from the intergovernmental panel on climate change s findings the co2 budget and the

concept of planetary boundaries which serve as a normative frame of reference this reveals the structural differences similarities fears and blind spots of the models particularly their varying potential to contribute effectively to overcoming the climate crisis the indicators are then used to evaluate how well the german federal government s 2025 coalition agreement fulfils the internationally agreed climate and sustainability targets to which the government itself is also bound the resulting indicators and grids can contribute to reflection and communication in educational processes political debates and civil society initiatives they can also assist companies in producing climate protection or sustainability reports
